

**exend**  
exclusive safety shoes

2020-2021 COLLECTION

Exena, azienda calzaturiera marchigiana nata nel 1998, è la storia di quattro imprenditori, esperti nel settore dell'antinfortunistica, che hanno cambiato il modo di pensare alle calzature di sicurezza ed hanno introdotto una visione estetica ad un prodotto di servizio.

Exena oggi è un'azienda specializzata nella lavorazione di calzature di sicurezza, contraddistinta da un equilibrato mix di alta qualità del prodotto, innovazione e flessibilità.

L'originalità del progetto si basa su tre principi fondamentali: inserire la ricerca e il design su un tipo di prodotto nato per essere standard; garantire alta qualità e affidabilità attraverso una continua innovazione ed il controllo di ogni fase della produzione, dalla progettazione alla realizzazione; aggiungere il servizio al cliente, flessibilità ed un ottimo rapporto qualità/prezzo.

*Exena, a footwear company on the land of Marche region, is the story of four entrepreneurs, specialist in the safety shoes sector, who have changed the way of thinking about safety footwear and have introduced an aesthetic vision of a service product.*

*Today Exena is a company specialized in the production of safety footwear, characterized by a balanced mix of high quality product, flexibility and innovation.*

*The authenticity of the project is based on three essential principles: inserting research and design on a type of product created to be standard; guaranteeing high quality and reliability through continuous innovation and control of every phase of production, from design to production; customer service, flexibility and an excellent quality/price ratio.*

# NORMS

## 1. CALZATURE DI SICUREZZA EN ISO 20345:2011

Sono dotate di puntali concepiti per fornire una protezione contro gli urti ad un livello di energia di 200 Joule e contro rischi di schiacciamento con carico massimo di 15.000 N.

## 2. CALZATURE DI PROTEZIONE EN ISO 20346:2011

Sono dotate di puntali concepiti per fornire una protezione contro gli urti ad un livello di energia di 100 Joule e contro i rischi di schiacciamento con carico massimo di 100.000 N.

## 3. CALZATURE DA LAVORO EN ISO 20347:2011

Non sono provviste di puntali di protezione.

## 4. CALZATURE DA LAVORO EN ISO 17249:2007

Calzature di sicurezza con resistenza al taglio da sega a catena.

*La presenza di soletta antiforo garantisce una resistenza totale alla perforazione da un carico di 1.100 N.*

## 1. SAFETY FOOTWEAR EN ISO 20345:2011

Safety footwear provided with toecap with basic impact 200 joules including compression 15.000 newton.

## 2. SAFETY FOOTWEAR EN ISO 20346:2011

Safety footwear provided with toecap with basic impact 100 joules including compression 10.000 newton.

## 3. SAFETY FOOTWEAR EN ISO 20347:2011

Footwear without safety toecap.

## 4. SAFETY FOOTWEAR EN ISO 17249:2007

Safety footwear with resistance to chain saw cutting.

*Total perforation resistance offered by a midsole: 1.100 N.*

## 1. CHAUSSURE DE SÉCURITÉ EN ISO 20345:2011

Conçu pour protéger les orteils du porteur des chocs atteignant un niveau d'énergie au moins égal à 200 J et de la compression à une charge d'au moins 15.000 N.

## 2. CHAUSSURE DE SÉCURITÉ EN ISO 20346:2011

Conçu pour protéger les orteils du porteur des chocs atteignant un niveau d'énergie au moins égal à 100 J et de la compression à une charge d'au moins 10.000 N.

## 3. CHAUSSURE DE SÉCURITÉ EN ISO 20347:2011

Chaussures de sécurité sans embout.

## 4. CHAUSSURE DE SÉCURITÉ EN ISO 17249:2007

Chaussure résistante à la coupure par tronçonneuse.

*Semelle intermédiaire garantit une résistance totale à la perforation: 1.100 N.*

## 1. SICHERHEITSSCHUHE EN ISO 20345:2011

Verfügen Über eine 200 joule schutzkappe gegen die risiken, die mit einer maximalen belastung von 15.000 auswirken.

## 2. SICHERHEITSSCHUHE EN ISO 20346:2011

Verfügen über eine 100 joule schutzkappe gegen die risiken, die mit einer maximalen belastung von 10.000 auswirken.

## 3. SICHERHEITSSCHUHE EN ISO 20347:2011

Schuhe ohne schutzkappe.

## 4. SICHERHEITSSCHUHE EN ISO 17249:2007

Schuhe mit schnittschutz für motorsägenarbeit.

*Total antiperforation durch eine 1.100 N zwischensohle.*

## 1. CALZADO DE SEGURIDAD EN ISO 20345:2011

Calzado de seguridad con puntera de protección con resistencia al impacto de 200 J y resistencia a la compresión máxima de 15.000 N.

## 2. CALZADO DE SEGURIDAD EN ISO 20346:2011

Calzado de seguridad con puntera de protección con resistencia al impacto de 100 J y resistencia a la compresión máxima de 10.000 N.

## 3. CALZADO DE SEGURIDAD EN ISO 20347:2011

Calzado de seguridad sin puntera ni plantilla de protección.

## 4. CALZADO DE SEGURIDAD EN ISO 17249:2007

Calzado de seguridad con resistencia al corte de motosierra.

*Resistencia total a la perforación de la plantilla: 1.100 N.*

HI	Isolamento della suola contro il calore	Heat insulation of the sole complex
CI	Isolamento della suola contro il freddo	Cold insulation of the sole complex
WR	Resistenza all'acqua (calzatura intera)	Water resistance of the whole footwear
M	Protezione del metatarso	Metatarsal protection
AN	Protezione dei malleoli	Ankle protection
CR	Resistenza al taglio	Cut resistance of the upper
HRO	Resistenza della suola al calore da contatto	Resistance of the outsole to hot contact

In assenza di queste marcature aggiuntive, i rischi descritti qui sopra non sono coperti / In the event that there are none of these additional marks, the risks described above are not covered

# TECHNOLOGY

## TOMAIA UPPER

Microfibra traspirante resistente agli strappi  
Tear-resistant breathable Microfiber

Materiale tomaio morbido e traspirante lavabile in lavatrice a 40°  
Soft and breathable upper material machine washable at 40°

Nuovo tessuto estremamente resistente, che coniuga protezione,  
leggerezza e traspirabilità  
New extremely resistant textile fiber, which combines protection,  
lightness and breathability

## FODERA LINING

Fodera a tunnel d'aria  
Air Tunnel lining

Fodera traspirante ultra-resistente  
Tear-resistant breathable lining

## PARTNERSHIP

Membrana impermeabile e traspirante, che contribuisce a mantenere il piede asciutto e nel contempo inalterato il microclima all'interno della calzatura favorendone il comfort

Waterproof and breathable membrane, which helps to keep dry and unchanged the microclimate inside the shoe favoring comfort

Leader mondiale nella produzione di Membrane termosaldate altamente tecnologiche, Moisture Tech di Sympatex è una membrana ad altissime prestazioni, 100% impermeabile, 100% riciclabile, traspirante ed estremamente resistente all'usura

World leader in the production of high technological heat-sealed membranes, productor, Moisture Tech Sympatex is a high performance membrane, 100% waterproof, 100% recyclable, breathable and extremely abrasion resistant

Membrana isolante che garantisce una temperatura ottimale del piede anche negli ambienti più freddi ed umidi, lasciando il piede fresco e asciutto per tutta la giornata

Insulating membrane which guarantees an optimal foot temperature, even in the coldest and most humid conditions, leaving fresh and dry the foot all day long

Marchio d'eccellenza per filati tecnici, Nylon Cordura offre un'assoluta resistenza dei tessuti a strappi e graffi

Excellence brand for technical fiber, Nylon Cordura guarantees an absolute resistance of the fabrics to tears and scratches

## PLUS

Sistema brevettato di chiusura per scarpe, che ne garantisce un utilizzo VELOCE, SICURO E RESISTENTE  
New Patented closure system for shoes which guarantees a fast, safe and durable use

Protezione morbida metatarsale estremamente confortevole e resistente agli impatti di oltre 100 J  
Soft internal metatarsal protection Extremely comfortable, light flexible and impact resistant 100 J

Tecnologia studiata per proteggere la caviglia da distorsioni e urti improvvisi  
Technology studied to Protect the ankle from sprain and sudden impacts

**PUNTALE**  
TOECAP

Puntale sintetico forato, traspirante, leggero (50g),  
amagnetico, resistente a 200 J  
Synthetic perforated toecap, breathable, lightweight (50g),  
non magnetic, 200 J resistant

Puntale in acciaio resistente a 200 J  
Steel toecap, 200 J resistant

Puntale sintetico leggero, amagnetico, resistente a 200 J  
Lightweight synthetic toecap, non magnetic, 200 J resistant

Puntale ampio extra comfort, sintetico, leggero, amagnetico,  
resistente a 200 J  
Extra comfort wide toecap, synthetic, non magnetic, 200 J resistant

Puntale in alluminio con ampia calzata, ultra leggero  
e resistente ad oltre 200J  
Extra comfort aluminum toecap, ultra light, 200 J resistant

**LAMINA ANTIPERFORAZIONE**  
PIERCE-RESISTANCE

Lamina antiperforazione in acciaio inox resistente a 1.100 N  
Antiperforation Inox steel, 1.100 N resistant

Lamina sintetica antiperforazione  
Synthetic midsole

Lamina sintetica antiperforazione per calzature conduttrive  
Synthetic midsole for conductive shoes

**SUOLA**  
OUTSOLE

Suola in soffice PU monodensità -SRC  
Monodensity sole made with soft PU - SRC

Suola in soffice PU bidensità -SRC  
Dualdensity sole made with soft PU - SRC

Intersuola in soffice PU e battistrada in TPU  
Midsole made with soft PU and TPU outsole

Intersuola in soffice PU e battistrada in gomma nitrilica  
Midsole made with soft PU and nitrilic rubber outsole

Spunterbo protettivo  
Protective overcap

## SOTTOPIEDE INSOLE

### C DRY

Sottopiede preformato; abbina un supporto in PE con tessuto a cellule aperte  
Cushioned insole; it combines a PE support with an open cells textile

### air DRY

Sottopiede preformato; abbina un supporto in PE con tela a cellule aperte  
Cushioned insole; it combines a PE support with an open cells net

### X DRY

Sottopiede anatomico "antishock" abbina un supporto in PE con tessuto a cellule aperte  
Antishock anatomic insole; it combines a PE support with an open cells textile

### REBOUND

Traspirabile e leggero, in morbido poliuretano espanso, caratterizzato da una bolla di poliuretano nella zona tallone che offre un continuo ritorno di energia  
Breathable and light, in soft polyurethane foam, featured by a polyurethane bubble in the heel area that offers a continuous return of energy

### TOP DRY

Sottopiede anatomico multistrato, abbina una base in feltro con sistema "slip stop" con un supporto ai carboni attivi ed un tessuto traspirante ed assorbente. Per piedi sempre asciutti

Multilayer anatomic insole; it combines a felt support with "slip stop" system and breathable and absorbent textile, for always cool and fresh feet

### X plant

Le solette X-Plant offrono un comfort di lunga durata, traspirabilità e assorbimento degli urti. Garantiscono piedi sani, unendo i loro materiali traspiranti e le più innovative tecnologie di produzione

X-Plant insoles provide a long-lasting comfort, breathability and shock absorption. They ensure comfort and healthy feet, combining their breathable materials and the most innovative manufacturing technologies

### impulse

Mesh traspirante e un poliuretano espanso ultra leggero, garantiscono un ottimo assorbimento del sudore, mantenendo il piede sempre fresco  
Ultra light polyurethane foam and breathabl lining guarantee an excellent sweat absorption, keeping all the time fresh and dry the foot

### X CONTROL

Realizzato seguendo la forma anatomica della pianta del piede, ottiene una migliore distribuzione delle forze e del carico su tutto il corpo, migliorando il reflusso venoso ed aumentando l'ossigenazione del sangue favorendo il defaticamento durante il lavoro

Realized following the anatomical foot shape, obtaining a better and more uniform distribution of the forces and the weight on the whole body, to allows the improvement of blood flow by increasing the oxygenation of it and supports the legs cool down during the work.

# 3M THINSULATE™ Insulation

## 3M THINSULATE ISOLANTE RESISTENTE ALL'ACQUA

3M Thinsulate è un isolante termico resistente all'acqua che aiuta i tuoi piedi a rimanere caldi senza essere ingombrante all'interno della calzatura. L'isolamento è costituito infatti da una membrana pre-compressa che anche nelle condizioni più fredde e rigide riesce a far fuoruscire l'umidità, facendo sì che il piede rimanga sempre fresco e asciutto.

- MEMBRANA PRE-COMPRESSA APPositamente studiata per le calzature
- È IL NOSTRO ISOLANTE TERMICO PIÙ RESISTENTE ALL'ACQUA, ANCHE QUANDO È BAGNATO
- IL PIÙ SOTTILE ISOLANTE TERMICO PER CALZATURE

## DESCRIZIONE PRODOTTO

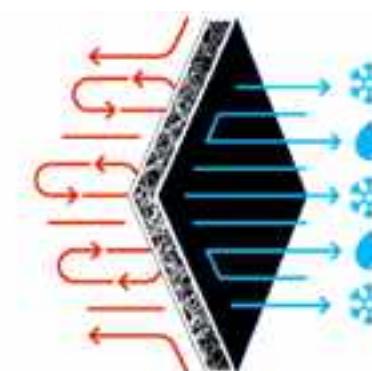

3M Thinsulate è isolante termico per calzature, (tipi B / BQ / BZ) è leggero, caldo, resistente all'umidità e traspirante. È progettato per resistere alla compressione e mantenere il calore sotto pressioni moderate.

- TRASPIRANTE
- RESISTENTE ALL'UMIDITÀ
- IPOALLERGENICO

## CALORE E UMIDITÀ

Mantiene la maggior parte della sua capacità isolante anche in presenza di condizioni di umidità.

Le singole fibre assorbono meno dell'1% del peso in presenza di acqua, e questo aiuta a far sì che la membrana si asciughi molto rapidamente.

## 3M THINSULATE WATER RESISTANT INSULATION

3M Thinsulate Water-Resistant Insulation for footwear helps keep your feet high and dry without unnecessary bulk. This insulation is pre-compressed, so whether you're trekking to your tree stand or strolling down frosty city streets, it helps keep your feet warm and comfortable.

- PRE-COMPRESSED INSULATION DESIGNED EXPRESSLY FOR FOOTWEAR
- OUR MOST WATER RESISTANT INSULATION FOR WARMTH, EVEN WHEN WET
- THE ORIGINAL THIN INSULATION FOR FOOTWEAR

## PRODUCT DESCRIPTION

3M Thinsulate Insulation for footwear (Types B / BQ / BZ) is lightweight, warm, moisture-resistant and breathable. It is designed to resist compression and maintain warmth under moderate pressures.

- BREATHABLE
- HYPOALLERGENIC
- MOISTURE-RESISTANT

## WARMTH WHILE DAMP

*Retains most of its insulating ability even under damp conditions. Individual fibers absorb less than 1% by weight of water. Easily dried.*

Dal 1986 Sympatex Technologies è una delle aziende leader a livello internazionale di materiali funzionali high-tech per abbigliamento (Apparel), calzature (Footwear), abbigliamento professionale (Contract & Workwear) e settori tecnici.

Sympatex Technologies has been one of the leading global suppliers of high-tech functional materials in clothing (Apparel), footwear, protective workwear (Contract & Workwear) and technical applications since 1986.

## MASSIMO RISPETTO PER L'AMBIENTE

- Membrana 100% riciclabile e a impatto neutro sul clima
- Laminati 100% riciclabili e riciclati
- Certificazione Oeko-Tex® Standard 100, bluesign® approved
- Membrana e laminati senza PTFE e PFC
- Componenti senza fluorocarburî
- Laminati con completa compensazione dell'impronta di carbonio

## MAXIMUM ECOLOGY

- 100% recyclable and climate neutral membrane
- 100% recyclable and recycled laminates
- Oeko-Tex® Standard 100 certified, bluesign® approved
- PTFE-free and PFC-free membranes and laminates
- Fluorocarbon-free treatments
- Laminates with a completely balanced carbon footprint

## TOP PERFORMANCE

- 100% impermeabile all'acqua
- 100% impermeabile al vento
- Traspirante in maniera ottimale
- Regolazione dinamica del clima
- Membrana estremamente sottile, elastica e non porosa
- Estremamente resistente all'usura

## TOP PERFORMANCE

- 100% waterproof
- 100% windproof
- Optimally breathable
- Dynamic climate control
- Very thin and high stretch poreless membrane
- Extremely hard-wearing

## LA MEMBRANA

Ciò che sembra complicato, di fatto è molto semplice. Sudando, il corpo si protegge dal surriscaldamento. Questo principio naturale è si necessario per vivere, ma comporta anche un rischio di raffreddamento se, ad esempio, l'umidità nei vestiti sottrae calore al corpo. Le conseguenze sarebbero un calo delle prestazioni ed un elevato rischio di prendere freddo.

La soluzione si chiama Sympatex, comfort ottimale per qualsiasi condizione atmosferica: impermeabile all'acqua, traspirante, impermeabile al vento.

Sympatex ha sviluppato una membrana speciale che preleva il vapore acqueo e lo conduce verso l'esterno attraverso gli abiti indossati. In questo modo il corpo rimane sempre caldo e asciutto anche in situazioni estreme. La cosa migliore è che maggiore è l'attività fisica e più efficientemente funzionerà la membrana Sympatex. Inoltre, i tessuti funzionali, grazie alla membrana Sympatex, proteggono efficacemente contro il freddo e la pioggia

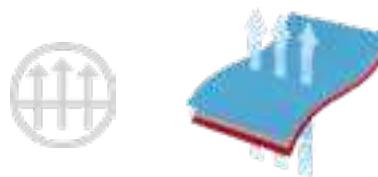

## MEMBRANE

Although it sounds complicated, it is actually very straightforward. When the body sweats, it does so to protect itself from overheating. Although this natural process is vital, it also creates the risk that the body will be cooled excessively; for example, if the moisture in the clothing removes the heat from the body. The consequences of this would be reduced performance and a high risk of catching a cold. The solution is called Sympatex.

Sympatex has therefore developed a special membrane which absorbs the water vapour and removes it through the clothing to the outside.

This keeps the body warm and dry even in extreme situations.

And the best thing about it is that the higher the physical activity, the more efficient the Sympatex membrane works. Functional textiles with a Sympatex membrane also provide effective protection from low temperatures and rain

## TRASPIRANTE IN MANIERA OTTIMALE

- Innovativo laminato per imbottitura, impermeabile all'acqua
- Migliorata dissipazione dell'umidità del piede
- Convogliamento ad ampia superficie dell'umidità alla membrana idrofila tramite uno strato intermedio innovativo
- Attivazione superficiale della membrana
- Attività traspirante ottimale e dinamica
- Grande comodità e piedi asciutti per prestazioni massime in presenza di condizioni climatiche variabili

## OPTIMALLY BREATHABLE

- Innovative waterproof lining laminate
- Improved moisture removal from the foot
- Large surface area transfer of moisture to the hydrophilic membrane through an innovative intermediate layer
- Full area activation of the membrane
- Perfect dynamic breathability
- Maximum wear comfort and dry feet for maximum performance in changing climatic conditions

**STRATO PROTETTIVO** PROTECTIVE LAYER

**MEMBRANA IDROFILA** HYDROPHILIC MEMBRANE

**STRATO INTERMEDIO** INTERMEDIATE LAYER

**IMBOTTITURA** LINING

## 100% IMPERMEABILE ALL'ACQUA

Quando si è all'aperto si è esposti direttamente alle condizioni meteorologiche. I tessuti funzionali con membrana Sympatex 100% impermeabile all'acqua offrono prestazioni ottimali per un maggiore piacere nelle attività outdoor.

L'impermeabilità della membrana viene misurata in base ad una colonna d'acqua sotto la cui pressione il materiale inizia a far penetrare l'acqua.

Secondo quanto indicato nella norma EN 343, una membrana si può definire impermeabile se resiste a una colonna d'acqua di almeno 1.300 mm.

In conformità a ISO 811, la membrana Sympatex supera ampiamente questi valori ed è estremamente impermeabile a una colonna d'acqua di oltre 45.000 mm.

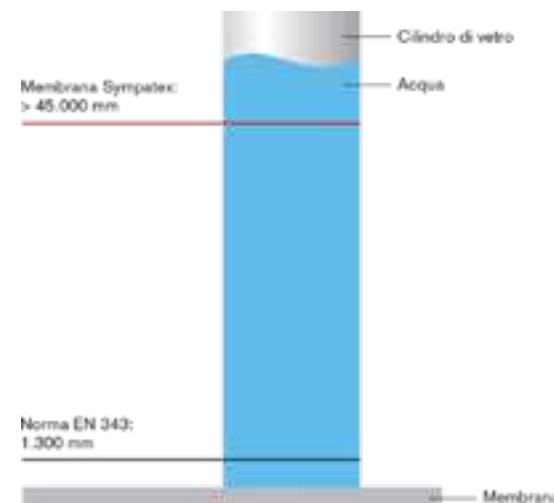

## 100% WATERPROOF

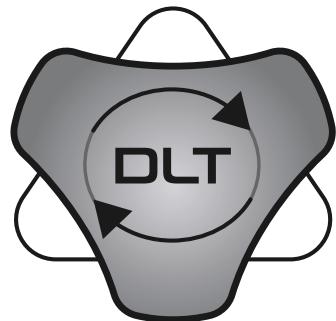

When outdoors, we are exposed to the prevailing weather conditions. Functional textiles which feature the 100% waterproof Sympatex membrane provide excellent performance and make for more outdoor enjoyment.

The waterproofness of the membrane is measured on the basis of the water column under the pressure of which the material starts to allow water through it.

According to EN 343, a membrane is waterproof if it can resist a pressure of 1.300 mm.

Pursuant to ISO 811, the Sympatex membrane far exceeds these values and is extremely waterproof with a water column of over 45.000 mm.

## DIAL LACING TECNOLOGY

### DLT, IL NUOVO SISTEMA INNOVATIVO PER LA CHIUSURA DELLA SCARPA, RAPIDO, SICURO E RESISTENTE

#### PRATICITÀ E SICUREZZA

DLT ci consente di avere una rapidità unica nella chiusura e nell'apertura della scarpa, infatti in caso di improvvise emergenze il rotore grazie ad un semplice movimento ci permette di liberare il piede in modo semplice e veloce.

DLT è un meccanismo composto da tre componenti: un rotore che ci consente appunto di regolare a nostro piacimento la calzata della calzatura, un laccio ultra resistente di acciaio e delle guide studiate per far scorrere il cavo senza avere impigli.

Mai più problemi di appigli con i vostri lacci o contaminazione con sporcizia o ancora usura degli stessi, il laccio DLT è costituito da un'anima di cavi in acciaio rivestiti da un leggerissimo strato di Poliuretano che ne favorisce la velocità nell'utilizzo e nella pulizia.

### DLT, THE NEW INNOVATIVE SYSTEM FOR CLOSING THE SHOE, FAST, SAFE AND RESISTANT

#### PRACTICALITY AND SAFETY

DLT allows to have an unique speed in closing and opening the shoe and sure enough in case of unexpected emergencies the rotor, thanks to an easy movement, allows to free the foot in simple and fast way.

DLT is a mechanism composed of 3 components: one rotor which allows to adjust to taste the fit of the shoe, one ultra-resistant steel lace and guides studied to slide the cable without getting tangled.

No more problems getting hooked with your laces or contamination with dirt or even wear of them. DLT lace is made up of a core of steel cables with an extremely light polyurethane layer which facilitates the speed in use and cleaning.

# STABILITY control

**UNA NUOVA TECNOLOGIA STUDIATA PER PROTEGGERE LA CAVIGLIA  
DA DISTORSIONI ED URTI IMPROVVISI**

**A NEW TECHNOLOGY STUDIED TO PROTECT THE ANKLE FROM  
SPRAIN AND SUDDEN IMPACTS**

Composto da rigido TPU, oltre a garantire una protezione maggiore da oggetti perforanti o taglienti, ci consente di avere un miglior controllo del piede nei movimenti laterali, mantenendo così sempre stabile e sicura la caviglia, contrastando le odiose distorsioni.

Inoltre, grazie agli sporgenti inserti laterali e posteriori, STABILITY offre una completa protezione da urti accidentali.

*In addition to guarantee a major protection against piercing or cutting objects, a rigid TPU allows to have a better foot control in lateral movements, maintaining in this way the ankle always stable and safe from the hated sprains.*

*Moreover thanks to the protruding lateral and posterior inserts, STABILITY offers a complete protection from accidental stikes.*

# X-ROAD

La nuova linea inspirata al mondo degli pneumatici da corsa, pronta a garantire elevati standard di qualità, sicurezza e comfort in un unico concetto di stile grazie ai nuovi materiali quali la suola in alta densità, il puntale ultraleggero in alluminio ed il sottopiede anatomico X CONTROL.

*The new collection inspired by racing tires world, ready to guarantee high standards of quality, safety and comfort in a unique concept of style thanks to new materials used, like the high-density sole, the ultralight aluminum toe cap and the X CONTROL anatomical insole.*

# AIR BALANCE

La linea sportiva di EXENA, nata con l'obiettivo di offrire al lavoratore una calzatura comoda e di stile durante e dopo il lavoro. Grazie alla forma da running ed alla suola in poliuretano e tpu, le gambe resteranno leggere per tutto il giorno.

The EXENA sports colelction, created with the goal to offer to the worker a comfortable and stylish shoe during and after work. Thanks to the running shape and the soft polyurethane and TPU sole, the legs will remain light all day long.

# TOP SPORT

Una delle prime collezioni di Exena ancora molto apprezzata. L'intersuola in poliuretano espanso permette di alleggerire il carico delle forze mentre il battistrada in gomma nitrilica garantisce piena stabilità al piede, offrendo così una calzatura adatta per tutti coloro che devono affrontare intere giornate in piedi.

*One of the first collections of Exena still very much appreciated. The expanded polyurethane midsole allows to lighten the load of the forces while the nitrile rubber outsole guarantees full stability of the foot, thus offering a shoe suitable for all those who have to face whole days stand.*

# X-LIGHT

La caratteristica di questa collezione è la leggerezza garantita sia dal puntale T-LITE sia dalla suola in bidensità. Con questa scarpa il lavoratore non avrà più il pensiero di indossare una calzatura da lavoro pesante e scomoda.

The characteristic of this collection is the lightness guaranteed both by the T-LITE toecap and by the dual density outsole. With this shoe the worker will no longer have the thought of wearing a heavy and uncomfortable safety footwear.
